#### **additional information about the Principesa Margareta collection of wines**

Since the early days of 1990, when Her Royal Highness Princess Margareta of Romania arrived among the Romanians who came out of the Communist dark era and until nowadays, the Crown Princess became a symbol for all the values that were lost or ignored for half of a century - honesty, respect for tradition, passion for excellence, modesty, volunteering, humanism and charity. Through each action, Her Highness became a pioneer in forming a new responsible elite, able to lay the first bricks in Romania's moral renaissance.

In September 2010, the Domeniul Coroanei Segarcea became once again an official supplier to the Royal House of Romania, thus returning to the place meant for it by its founder, King Carol I.

Answering a demand from Her Royal Highness Crown Princess Margareta of Romania, we created two special wines, in limited editions. We tried to capture in their expression both the gratitude towards the history that tied our destiny to the Royal House and the promise that we shall never abandon the standards of excellence that consecrated Segarcea's name.

The history lesson the vineyard in Segarcea repeats each day to the world is that well made works never fall under ages, nor people. In the darkest days of the Communist collectivization, the Segarcea estate remained a landmark for quality production, as it was first intended by its founder, His Majesty Carol I of Romania. In sign of recognition and gratitude, today's Domeniul Coroanei Segarcea remains dedicated to the values in force at its foundation in 1884 - excellence, tradition, love and respect towards the land.
