SEGARCEA

INTERNATIONAL RECOGNITIONS

WINEZIM 2021

WILVER - Vinalies Mondial du Roze, France, 2022

KISS

Type of wine: Rosé, dry.

Variety: Fetească Neagră, Pinot Noir

Harvest Year: 2020

Alcohol: 13 % vol.

Vineyard organization: The domain has 12.9 hectares with Fetească Neagră and 23 ha with Pinot Noir, planted at a density of 5,600 and 5000 plants per hectare. The pruning mode is simple Guyot. For this range, plots with an average production of 8-10 tons/ha are chosen.

Vinification method: The grapes were harvested mechanically and underwent film maceration for color extraction, for a period of 3-6 hours. This was followed by pressing, clarification of the cold slum and then slow fermentation followed in stainless steel tanks for about a month, at temperature 15-18 °C. The wine thus obtained was matured on fine yeasts.

Tasting notes: "KISS" is a meeting - not only between two varieties but also between two schools, two cultures, two traditions. Pinot Noir - one of the great grapes of France, and Feteasca Neagră - the symbolic variety of Romania. However, the wine born from this encounter represents more than the sum of its components - the attributes of each variety being intertwined in a distinct personality. It has something from the delicacy and elegance of the Pinot, but also notes of the strength and well-tempered rusticity of the Feteasca Neagră. Intense and deep salmon-pink color, with aromas of white cherries, rose petals, pepper, dried leaves, complex but untiring. The taste is fresh, lively, dominated by fruit notes, with a strong acidity but well masked by the denser than average body and with a long, pleasant, intense and relaxing finish. A solar wine but which does not necessarily require summer evenings and holidays, but rather long meetings, warm conversations and the pleasure of sharing.

Recommended serving temperature: 11°C - 13°C. Any deposits certify the minimum number of interventions that are made on the wine.
