**GOLD** - Selections Mondiales des Vin de Canada, 2011

**SILVER** - Wine Tasting Competition, USA, 2011

**SILVER** - Femmes et Vins du Monde, Monaco, 2011

## Range Rare Varieties

### TĂMÂIOASĂ ROZĂ

**Type of whine:** Rosé, semi-sweet.

**Variety:** Tămâioasă Roză, synonymous with Muscat Rouge de Frontignan. It is part of the same family as Tămâioasa Românească.

**Harvest Year:** 2019

**Alcohol:** 12,5 % vol.

**Vineyard organisation:** The estate has 13.3 ha of this variety, of which 1.3 ha is the mother plantation, of over 100 years old. Stalks for grafting were taken from this area and a new plantation of 12 ha was set up. The pruning mode is simple Guyot.

**Vinification method:** The grapes were harvested manually at a maturity level of 256 g of sugar/litre and cleaved. The richness of aromas is found in the skin of the berries and therefore, in order to extract it, a film maceration was made for 24 hours at temperatures between 8° C - 10° C. After maceration the color was also extracted. A light pressing followed and the stum obtained was fermented for 21 days in stainless steel tanks at controlled temperatures between 15° C - 18° C. To keep the remaining unfermented sugar, fermentation was stopped by rapid cooling to 5°-7° C.

**Tasting notes:** A variety saved from extinction that, simultaneously with the relaunch of the Segarcea vineyard after 2002, managed to find its international recognition in just a few years of existence on the market. The achievement is even greater as the jury, with an obvious inclination towards dry wines, considered this semi-sweet wine worthy of the highest distinction. The distinctive aromas - of well-cooked peach, white apricots and red berries - build a delicate but strong bouquet. The same aromas are found in the taste, but the finish leaves behind a long note of petals and rosejam.

**Recommended serving temperature:** 8°C - 10°C. Any deposits certify the minimum number of interventions that are made on the wine.
